Re: Intervention Update

Date: November 6, 2017

This memo is to update you on aggregate intervention data for the 2016-2017 school year as well as steps taken to strengthen our 2017-2018 programming. Below you will find the following tables:

- Total number of students receiving intervention by Round
- Student benchmark performance data of students receiving interventions by grade level
- Percentage of students not receiving interventions and not meeting benchmark

The goal of tracking and analyzing the data below - at both the school and district level - is to ensure all students receive appropriate levels of support in order to accomplish Suffield's Mission of *preparing all students for success in a rapidly changing world.*

Specific next steps for the 2017-2018 school year include creating a Suffield Public School's Intervention Manual that clearly articulates entrance and exit criteria at each grade level, parent and teacher communication protocols, and specific progress monitoring expectations.
